To

FATIMA JINNAH
MEDICAL UNIVERSITY, LAHORE
Government of The Punjab

(Alumini Donors)

For supporting 42 children with type 1 diabetes

This Ramadan!

Meethi Zindagi
Great life with diabetes

**YOUR GENEROSITY GAVE
42 CHILDREN A YEAR OF
HEALTH, HOPE & SMILES!**

Meethi Zindagi
Great life with diabetes

Here's an update on the journey of 13
of those children, which wouldn't have
been possible without your support.

Ayesha Tahir (POI # 335)

An incredible child from Kotli, Azad Kashmir, who just scored 94% marks in AJ&K Board Annual Matriculation Exams, while managing type 1 diabetes along with other household chores. Ayesha proved that with the right support system, anything is possible.

M. Shahzad

(POI # 807)

From measles to a shocking type 1 diabetes diagnosis, 6-year-old Shahzad's family struggled to cope with his condition. Once thought impossible, they are finally seeing his HbA1c improve significantly.

Shifa Fatima

(POI # 809)

Once terrified of injecting, little Shifa couldn't bear her doses. But with Meethi Zindagi's tele-education guidance, she adapted and now, she's completed a strong first year. Her latest report reflected noticeable progress, as highlighted by her doctor.

Muhammad Qasim (POI # 538)

Qasim's hypo episodes used to leave his family in panic. But with the right guidance, they can now give him the informed care he deserves. Qasim is all set to join his school again.

Fiza Sajjad

POI # 060

It was when she lost her father that she found her courage — facing type 1 diabetes head-on. With your support, she received lifesaving insulin and essential care, got her health back on track, and returned to school.

Abdul Hanan (POI # 810)

Diabetes couldn't stop his passion for cricket. While successfully managing his blood glucose levels around practice, Abdul Hanan dreams of becoming a cricketer. Who knows, you might be looking at the next Waseem Akram.

Tehreem Fatima (POI # 806)

Scoring an impressive 76% in 7th grade, Tehreem is proving that type 1 diabetes can't hold her back. With constant support and guidance, she's not just managing diabetes, she's confidently chasing her dreams.

Daniyal Akraw (POI # 301)

At the edge of losing their son, Danyal's parents found Meethi Zindagi. Today, with insulin, care, and support, he's thriving and receiving guidance every step of the way. With diabetes now manageable, Danyal's parents have enrolled him in Sharia studies.

Fiza Noor

(POI # 811)

With no hospital nearby, each visit was costly, yet Fiza's family continues to put her health first. Your constant support and their unwavering care have helped her stay focused on her studies and brought her closer to achieving her dreams.

M. Raffay

(POI # 808)

Insulin was unavailable, and testing strips were out of reach. Now, insulin & life-saving supplies reach their doorstep. His giggles now echo through every corner of their home.

Munawar Hanif (POI # 487)

After Munawwar's father passed away, his mother couldn't afford his insulin. With essential care, a child who could've been lost in the struggle of earning to afford insulin is now continuing his studies — all thanks to YOU!

M. Abdullah (POI # 045)

At just 11, Abdullah carries weight far beyond his years after losing his father. Thanks to your support, a brother to 4 sisters, is managing diabetes well and dreaming of joining the Army. "One day, I will make my sisters and Mama proud", Abdullah said.

Suneha Mushtaq (POI # 796)

A confident debater fell silent after her diagnosis of type 1 diabetes. But with Meethi Zindagi's support and one-on-one counseling, she found her confidence and voice again. The stage is set for her to once again "WOW" the audience.
